Bet	Materials & properties; forces Animals inc. humans	Living things & habitats Plants	Animals inc. humans; being healthy Materials & properties.
Aleph	seasons	materials	Animals and humans
Notes	<p>All the national curriculum is covered across the school.  Each year group must include scientific skills and scientific enquiry with each topic covered.  Clear learning must be identified for each weekly lesson, identifying prior knowledge that is being built on and key vocabulary that should be known and that should be taught.</p>
